Collection of Other Information

We and our service providers may collect Other Information in a variety of ways, including:

- **Through your browser or device**: Certain information is collected by most browsers or automatically through your device, such as your Media Access Control (MAC) address, computer type (Windows or Mac), screen resolution, operating system name and version, device manufacturer and model, language, and Internet browser type and version. We use this information to ensure that the Site functions properly.

- **Using cookies**: Cookies are pieces of information stored on the computer that you are using. Cookies allow us to collect information such as browser type, time spent on the Site, pages visited, language preferences, and other traffic data. We use the information for security purposes, to facilitate navigation, to display information more effectively, and to personalize your experience. We also gather statistical information about use of the Site to continually improve its functionality, understand how it is used, and assist us with resolving questions about it.

If you do not want information collected through the use of cookies, most browsers allow you to automatically decline cookies or be given the choice of declining or accepting a particular cookie (or cookies) from a particular site. If, however, you do not accept cookies, you may experience some inconvenience in your use of the Site.

We do not currently respond to browser do-not-track signals.

- **Using pixel tags and other similar technologies**: Pixel tags (also known as web beacons and clear GIFs) may be used to, among other things, track the actions of Site users and email recipients, measure the success of our marketing campaigns, and compile statistics about Site usage and response rates.

- **Adobe Flash technology (including Flash Local Shared Objects ("Flash LSOs")) and other similar technologies**: We may use Flash LSOs and other technologies to, among other things, collect and store information about your use of the Site. If you do not want Flash LSOs stored on your computer, you can adjust the settings of your Flash player to block Flash LSO storage using the tools contained in the Website Storage Settings Panel. You can also go to the Global Storage Settings Panel and follow the instructions (which may explain, for example, how to delete existing Flash LSOs (referred to as "information"), how to prevent Flash LSOs from being placed on your computer without your being asked, and how to block Flash LSOs that are not being delivered by the operator of the page you are on at the time). Please note that setting the Flash Player to restrict or limit acceptance of Flash LSOs may reduce or impede the functionality of some Flash applications.

- **IP Address**: Your IP address is a number that is automatically assigned to your computer by your Internet service provider. An IP address may be identified and logged automatically in our server log files whenever a user accesses the Site, along with the time of the visit and the pages visited. We use IP addresses for purposes such as calculating usage levels, diagnosing server problems, and administering the Site. We may also derive your approximate location from your IP address.
